EASY STATION

40" Cart Workstation

MODEL:

30" Cart Workstation	SCF2-CW30
40" Cart Workstation	SCF2-CW40
55" Cart Workstation	SCF2-CW55

The Selens Cart Workstation is designed to transport filming gear or other equipment efficiently, helping you move faster, reduce physical strain, and prevent equipment loss. Specifically built for film production, this cart streamlines your workflow, saves valuable time, and simplifies your on-set operations.

KEY FEATURES

- Quick Tool-Free Assembly/Disassembly
 - 440 lbs.(200KG) Load Capacity
 - 4 Corners Expandable M28(1-1/8") Standard Accessories
 - 10" High Load-Bearing Wheels
- Rear Wheel Manual Brake
 - Steel and Aluminum Alloy CNC Processing
 - Only 7.3" Thick when Folded
 - Expandable Selens Easy Station Accessory System

FLEXI PANEL

Control Box

200W RGBWW LED Flexible Fabric Light
SLC4-FP200Spro

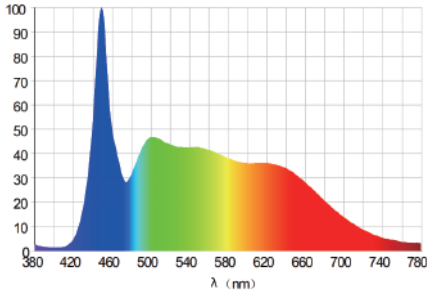

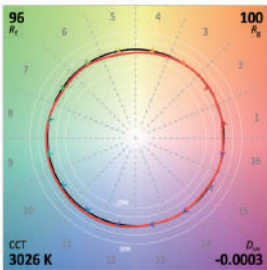

The Selens 200W RGBWW LED Flexible Fabric Light is an ultra-thin, 375g light mat engineered to roll, bend, and fit into impossible spaces like car interiors and low ceilings. Delivering a punchy, wrap-around soft light with a 2500K to 8000K CCT range, it features professional-grade CRI 97+ and TLCI 98+ ratings for flawless skin tone reproduction and 0 to 100% flicker-free dimming. The fully detached control box supports world-wide AC inputs and integrates a V-mount battery plate for untethered location workflows. Built with mobile App and wired DMX512 protocols for seamless remote synchronization, the system utilizes a fanless thermal design to achieve 0dB absolute silence on sound-sensitive sets.

KEY FEATURES

- CRI ≥97 / TLCI ≥98 Color Fidelity
 - 200W Full-Color RGBWW Flexible LED Mat
 - Bendable and Foldable Ultra-Thin Fabric Design
 - Tunable Green-Magenta Adjustment
- 2500 - 8000K CCT, HSI Color Control
 - Multi-Voltage AC/DC Operation with Built-In V-Mount Plate
 - Intelligent Onboard Control, DMX, and App Integration
 - Complete Kit with Softbox, Grid, and Storage Case

Selens Link

Parameters	200W RGBWW LED Flexible Fabric Light (SLC4-FP200Spro)
Lighting FX	13 (Explosion, TV, Pulsing, Faulty Bulb, Strobe, Lightning, Flashlight, Flame, Fireworks, RGB, Bar, Warning, Party)

100% illumination	21300 lux (@0.5m/5600K)
Light effect mode	13
CRI	≥95
TLCI	≥98
Dimming range	0%-100%
Number of LED	144
Working temperature	-10° C~40° C
Expand size	60.7x62x7cm (Including the bracket)
Light weight	2.07kg

Q LOCK

Q Lock mini Quick Release Kit
SEO8-QL42-B

The Q Lock mini Quick Release Kit is a compact, lightweight mounting solution for cinema accessories, offering a high payload capacity of up to 10kg (22 lbs). It provides exceptional versatility and seamlessly integrates with your existing gear through broad compatibility with industry-standard interfaces, including ARRI mounts, NATO rails, and anti-twist threads. Precision CNC-machined, its standout feature is a twist-free locking mechanism with "zero-play" tension adjustment, ensuring rapid, ultra-secure attachment to maximize workflow efficiency on set.

KEY FEATURES

- Quick Release base & plate
- NATO Rail
- 1/4"-20 and 3/8"-16 Threads and Screws
- Removable ARRI Anti-Twist Pins
- Aluminum alloy material
- Load capacity: 10kg (22 lb)

Selens GEMINI Damping Magic Arm
SE08-HA320

GEMINI

The Selens Damping Magic Arm is a professional, high-capacity mounting solution specifically engineered to support cinema monitors, wireless transmitters, and critical production accessories. Moving away from traditional rosette designs that instantly collapse when loosened, this magic arm incorporates an advanced fluid-style damping system. This allows camera assistants (ACs) and DPs to fluidly reposition equipment or micro-adjust angles on the fly without the anxiety of an expensive monitor crashing down.

KEY FEATURES

- Stepless Damping Adjustment Cine Arm
- Asymmetric Dual-Arm Tension Control
- 13.2 lb Load Capacity
- Interchangeable Modular End Mounts
- Telescoping 1/4"-20 and 3/8"-16 Screws
- Removable ARRI Locating Pins with On-Board Storage
- Thrust Bearing Assisted Locking Knob
- Anti-Rust Stainless Steel Ball Joints

Selens MagSafe Magnetic Phone Tripod
SMM13-PH10

Selens MagSafe Magnetic Phone Tripod

The Selens MagSafe Magnetic Phone Tripod is an 8mm ultra-slim, all-metal rigging system that combines a stand, tripod, and grip into one pocket-sized device. It features a dual-sided magnetic matrix and magnetic feet for mounting on metal surfaces, plus a "Mantis" hook for hanging from monitors. With instant orientation switching and native Arca-Swiss, 1/4"-20, and ARRI compatibility, it seamlessly integrates with professional gear for versatile, on-the-go shooting.

KEY FEATURES

- 3 in 1 design (phone stand, tripod, handheld grip)
- Dual-Sided MagSafe Matrix
- Mantis Invisible Hook
- Arca & 1/4" Mount
- 8mm Ultra-Slim Profile

Pigtail Lighting Dual Pin Extension Arm
SLO4-PH16

Pigtail Lighting Dual Pin Extension Arm

The Selens MagSafe Magnetic Phone Tripod is an 8mm ultra-slim, all-metal rigging system that combines a stand, tripod, and grip into one pocket-sized device. It features a dual-sided magnetic matrix and magnetic feet for mounting on metal surfaces, plus a "Mantis" hook for hanging from monitors. With instant orientation switching and native Arca-Swiss, 1/4"-20, and ARRI compatibility, it seamlessly integrates with professional gear for versatile, on-the-go shooting.

KEY FEATURES

- Wrap-Around Pigtail Design
- Mounts onto a 30-35mm Stand Rod
- Dual 16mm Baby Pin
- Anti-Slip Protective Rubber
- Load capacity: 10kg (22 lbs)
